SwissKH® straight satin-finisher

art. 1000332

The SwissKH straight satin-finisher has been designed and redesigned to meet the specific needs of users. A sleek design that will turn heads in your workshops.

The straight satin-finisher has undeniable advantages. It can be reworked for after-sales service, it can draw straight lines, and it guarantees reproducibility and quality.

The top end of the market demands quality machines, and we have one to offer.

Roller spacing

ENTRAXES ARE VARIABLE FROM 36MM, 60.5MM OR 85MM ACCORDING TO THE POSITION OR THE NEED FOR FLEXION TO RECEIVE THE FALSE ANGLE OF THE PIECES.

Stainless steel thumbwheel

THE THUMBWHEEL PROVIDES FINE HEIGHT ADJUSTMENT AND EXCELLENT STABILITY.

Arrows

THE ENGRAVING OF THE ARROWS HELPS YOU TO DEFINE THE DIRECTION IN WHICH IT IS APPROPRIATE TO TURN.

Stainless steel guides and

GUIDES AND ROLLERS ARE MADE OF STAINLESS STEEL TO AVOID CONTAMINATION OF YOUR PARTS.

ROLLERS ARE ON INA-FAG QUALITY BEARINGS.

Posages and vacuum

THE DIFFERENT POSES OFFER POSSIBILITIES FOR CROSSING STROKES, AND THE OPTIONAL VACUUM WILL HOLD THE THINNEST AND MOST COMPLEX PARTS.

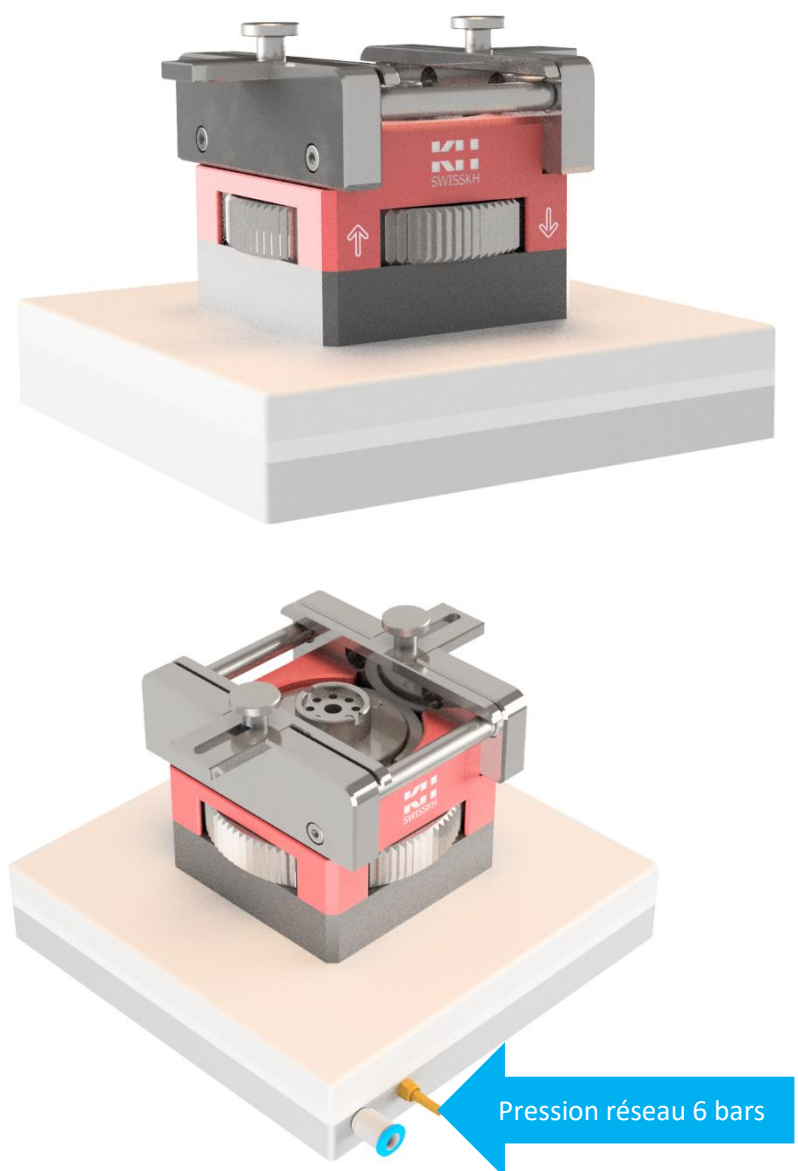

Vacuum baseplate 1, SwissKH® satin-finisher

art. 1003000

The Vacuum 1 baseplate will enable you to generate the clamping of the finest and most complex parts.

The vacuum baseplate is equipped with an external Ventur. All you need to do is apply pressure to the rear of the system (connect to your network with ø6mm external hose). A manual ON/OFF valve is supplied.

Compatible option: 1003002, vacuum foot pedal

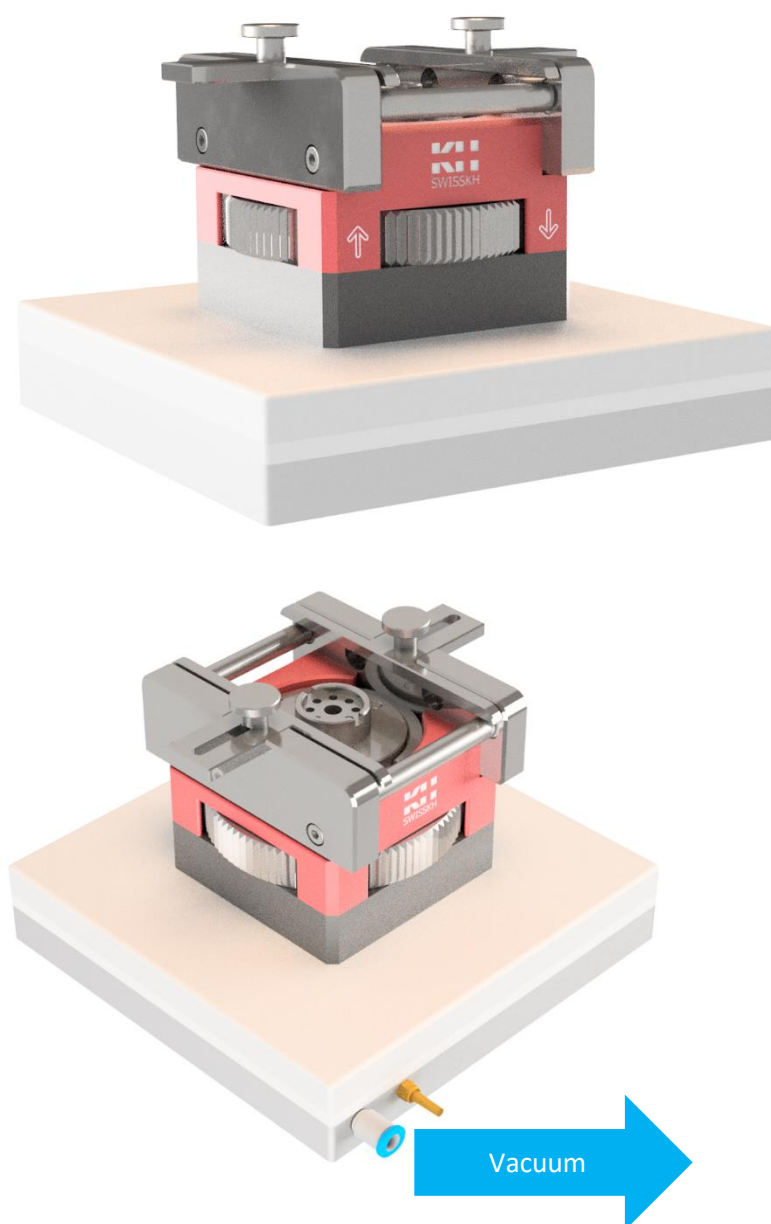

Base vacuum 2, SwissKH® satin finishing unit

art. 1003001

The Vacuum 2 baseplate will enable you to generate the clamping of the finest and most complex parts.

The vacuum 2 does not incorporate a Venturi. Simply connect your vacuum network to the rear of the system (using $\varnothing 6\text{mm}$ external hose). A manual ON/OFF valve is supplied.

Compatible option: 1003002, vacuum foot pedal

Vacuum foot pedal, SwissKH® satin-finisher

art. 1003002

This option frees up your hands, allowing you to get on with the job faster and more carefully.

Option compatible with vacuum baseplate 1 option #1003000 and vacuum baseplate 2 option #10030001.

Ruler, SwissKH® satin finishing device

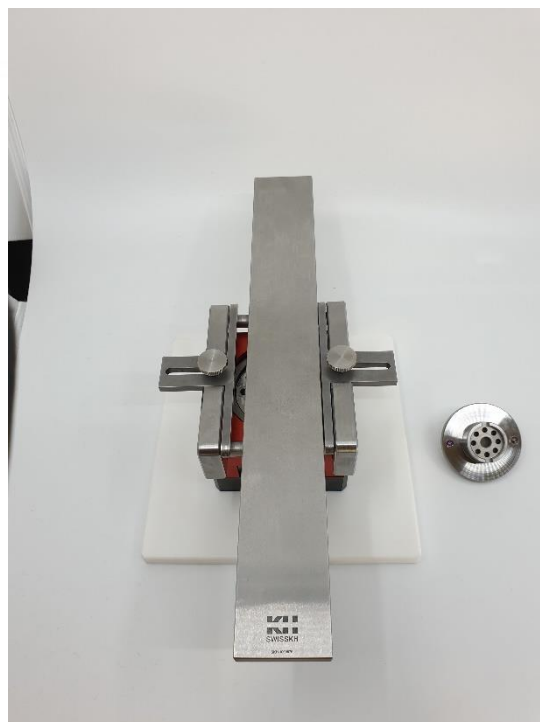

art. 1000676

CLICK
HERE

The hardened-rectified steel ruler, flat to the hundredth, is made for precision work. Its comfortable dimensions of 300x40x10mm make it a great asset when preparing your satin finish.

The ruler enables you to glue your abrasive paper, unroll it on the workpiece to be decorated using the straight satin-finisher, or place it on the workbench to work on your pieces.

This ruler is ideal for use with the SwissKH satin-finisher or the SwissKH strapping machine.

Fitting $\varnothing 30\text{mm}$ x H6mm SwissKH®

art. 1000532

Brass fixtures are used for manual bevelling and for SwissKH machines (satin-finishing machine, strapping machine, Angelo machine, beading machine, etc.).

The dish prevents the setting from rolling off the table when used manually.

These blanks will enable you to implement your requirements more quickly.

SwissKH also offers its services for the development and machining of specific fixtures.

Knurled stainless steel handle L=100mm M3x5 SwissKH®

art. 1001475

The stainless-steel handle allows you to handle your parts using standard fixtures.

SwissKH also offers its services for the development and machining of specific fixtures.

GVD 0.7 two-stage rotary vacuum pump

art. 1003049

GVD 0.7 two-stage rotary vacuum pump

GVD 0.7-1.5

Pre-selected by SwissKH, this quiet Atlas Copco professional vacuum pump is ideal for use on our machines and other systems such as bench blowers.

With a sound power level of just 47dB, it will bring you comfort and peace of mind.

You can use it continuously, and it will meet all your requirements!

If you need to size a vacuum pump for several workstations, SwissKH - an Atlas Copco partner - can help you size a pump to suit your needs.

Just give us a call.

Professional vacuum pump - vacuum GVD 0.7 Atlas Copco

Flow 0.9m³/h, 90W

Total pressure 3 x 10⁻³ mbar

Weight: approx. 10 Kg

Dimensions 150mm (A) x 178mm (H) x 324mm (L)

W: Width H: Height L: Length

Supplied with:

10A cable kit

Oil separator kit

Oil return kit

With connection adapted to your workshop, to be defined (ø6mm as standard)

GVD 1.5 two-stage rotary vacuum pump

art. 100350

GVD 1.5 two-stage rotary vacuum pump

GVD 0.7-1.5

Pre-selected by SwissKH, this quiet Atlas Copco professional vacuum pump is ideal for use on our machines and other systems such as bench blowers.

With a sound power level of just 54dB, you'll enjoy comfort and peace of mind. Its little sister is even quieter (43dB).

You can use it continuously, and it will meet all your requirements!

If you need to size a vacuum pump for several workstations, SwissKH - an Atlas Copco partner - can help you size a pump to suit your needs.

Just give us a call.

Professional vacuum pump - vacuum GVD 1.5 Atlas Copco

Flow rate 1.8 m³/h, 160W

Total pressure 3 x 10⁻³ mbar

Weight: approx. 10 Kg

Dimensions 150mm (A) x 178mm (H) x 324mm (L)

W: Width H: Height L: Length

Supplied with:

10A cable kit

Oil separator kit

Oil return kit

With connection adapted to your workshop, to be defined (ø6mm as standard)
